

## Simplified eDiscovery Automation

CloudNine empowers legal and business professionals with **eDiscovery automation software** and **professional services** that simplify litigation, investigations, and audits for law firms and corporations.

The company's flagship offering is its cloud-based, Software-as-a-Service (SaaS) delivered, simplified eDiscovery automation software, also known as CloudNine. This eDiscovery automation software streamlines the **discovery, investigation, and audit** process for attorneys and compliance managers and is currently used by more than 50 of the top 250 Am Law firms as well as extensively used in many of the world's leading corporations. CloudNine has also been recognized in reports and surveys by analysts and end users in reports and surveys by Gartner, 451 Research, Blue Hill Research, Corporate Counsel Magazine, the New York Journal, and Texas Lawyer.

### eDiscovery. Investigations. Audits.

CloudNine helps legal professionals address the most pressing challenges<sup>1</sup> of managing discovery to include:

N=80

Because of these challenges, legal and information technology professionals need discovery platforms that help reduce these challenges while delivering the most effective and appropriate features available. CloudNine provides this capability with its proprietary eDiscovery automation software.

### Upload. Review. Produce.

CloudNine helps users to start discovery, investigations, and audits with three easy steps:

**Upload Your Data:** CloudNine allows users do-it-yourself uploading of data to our secure online repository while automatically converting documents to a usable format for review. We offer cost effective cloud-based eDiscovery software to process and review large volumes of data, reducing the expense of traditional processing, loading, and hosting.

**Automated Processing:** CloudNine is an intuitive platform with multiple viewing options. Create review sets for multiple reviewers. Add users and data fields as needed. Set user rights to control access to functions, fields, and documents. With a comprehensive search engine, users can even get highlighting images.

**Review and Produce:** CloudNine makes producing responsive data easy, generates production and privilege logs, and eliminates the need for additional processing after export. Image, native and text files can be exported, with the images Bates numbered, custom-branded, and converted to single or multi-page TIFF or PDF with a load file.
