cloudnine™ LAW

CloudNine LAW™

Helping legal professionals meet increasing discovery demands.
Rely on this trusted tool to ensure you can process all discovery data—electronic and paper—while providing maximum flexibility in production and in export to review.

Process and Produce Discovery
Data Reliably and Confidently
with CloudNine LAW.

- Support for over 2,000 file types for importing and exporting:
  ◦ Import directly from CloudNine Explore™ and export directly to CloudNine Review™ and Concordance® as well as other leading document review platforms in a wide range of formats.

- Scalable to handle even the largest imaging, endorsing, OCR or print jobs by just adding additional agents.

- Power production capabilities:
  ◦ CloudNine LAW leads the way in document production, including the most flexible imaging and endorsing capabilities.

Benefits of CloudNine LAW

- See fast return on investment— often after just the first large litigation matter.
- Improve cash flow by significantly reducing eDiscovery processing spend.

- Shorten learning curve and ease IT support burden.
- Take back control of the discovery process and ensure that data is under direct oversight at all times.

CloudNine LAW Case Study

Issue - The firm's out-of-pocket discovery costs were skyrocketing along with growing concerns over loss of data control with outsourced processing solutions.

Solution - Bring discovery processing in-house with CloudNine LAW to better control costs and client data.

Results - CloudNine LAW delivered fast ROI, improved cash flow and provided direct supervision of their client data with an in-house, easy-to-use solution for discovery processing.

About CloudNine

Every day, CloudNine Software helps our 1,000+ clients answer their most pressing discovery questions.

Established in 2002, CloudNine has offices in Houston, Raleigh and Dayton with remote employees throughout the USA.
